

Welcome to the 2016 Twenty-five Year Award

For more than 60 years, the Institute Honor Awards program has recognized achievements for a broad range of architectural activity to elevate the general quality of architecture practice, establish a standard of excellence against which all architects can measure performance, and inform the public of the breadth and value of architecture practice.

Eligibility

This award, recognizing architectural design of enduring significance, is conferred on a project that has stood the test of time for 25 to 35 years. The project must have been designed by an architect licensed in the United States at the time of the project's completion. AIA members, AIA components, and Knowledge Communities are urged to submit projects completed between 1981 and 1991 that have contributed meaningfully to American life and architecture.

The award is open to architectural projects of all classifications and may be one building or a related group of buildings forming a single project. The project must be standing in a substantially completed form, in good condition, and should still carry out the original program. Change of use is permitted when it has not basically altered original intent. The project must have excellence in function—in the distinguished execution of its original program and in the creative aspects of its statement by today's standards. Building and site together should be examined. Any alteration to the immediate context shall be taken into consideration.

Nominations previously submitted may be resubmitted provided they still meet the stipulated date of substantial completion of the original project.

Deadline and Entry Fees

- The deadline for submission completion is August 21, 2015 **before 5:00 PM Eastern**. All deadlines are strictly observed.
