Gentlemen:

I wish to take this opportunity to recommend for your consideration for Fellowship the application of the North Carolina Chapter for admission of Walter W. Hook of Charlotte, North Carolina.

Mr. Hook is an outstanding architect in our region. He has given a great deal of time and effort in advancing the cause of good architecture and in securing professional standards and ethics in the state. He has stood for--and fought for-- all the principles for which the American Institute of Architects stands.

He has been active in the State Building Code Council and has been the chapter's liason between our group and the state government on many occasions.

I believe the above is the opinion of most of us in the Chapter and your favorable action will be well received by the Chapter and the North Carolina public at large.

Gentlemen:

I would like to commend to you the application that has been made by the N. C. Chapter of AIA for the admission of Walter W. Hook, AIA of Charlotte, North Carolina as a Fellow in the American Institute of Architects.

While the action of our Chapter was heatily concurred in by the writer, I would like to just add my personal endorsement to this application.

I have known Mr. Hook personally two years and by reputation throughout my eight years of practice. I can say without reservation that he is an outstanding member of our profession and has represented the Architects of North Carolina long and well in all of his endeavors and especially in his capacity as member of the North Carolina Board of Architectural Examination and Registration and on the State Building Code Council. His work in the Building Code Council as Chairman is particularly worthy of note and admiration by the entire State.

The preparation of a new Building Code from the start was in itself a gigantic undertaking. The quality of the work is exemplified by the fact that our Code is considered among the foremost in the country. Mr. Hook has gained the admiration of all of the profession by his forthright and uncompromising stand on controversial matters and decision handed down by the Council.

Mr. Hook is one of North Carolinas most outstanding and busiest Architects. He has maintained an active interest in the local Chapter and is in great demand as a public speaker and representative of the Architectural profession and building industry.

Your consideration of Mr. Hook as a Fellow will do a great deal to recognize his outstanding service to the profession.

Dear Sirs:

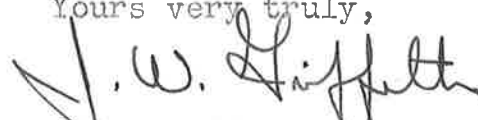

I would like to take this means as an individual to let you know that I am very much in favor of Mr. Walter W. Hook, A.I.A. of Charlotte as a candidate for Fellowship in the American Institute of Architects.

The personal contacts that I have had with Mr. Hook have been very pleasant and one gets the impression that here indeed is a sincere and talented Architect who is more than willing to give his time to helping the Profession as a whole and not one just pushing his own "cart".

His jobs I have seen are, in my opinion ~~xxx~~, among the best that have been done in this area and I am more than impressed with what the Contractors who have worked on his jobs have to say to a man about his ability and sense of fairness in dealing with them.

I hope that the American Institute of Architects extends a Fellowship to Mr. Hook and I just wanted to add my personal word to stress what I am sure the N.C. Chapter as a whole wishes to have done.

Re: Walter W. Hook, A.I.A.

For Fellowship in the Institute

Gentlemen:

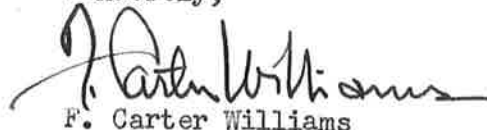

Some time ago the North Carolina Chapter voted Mr. Walter W. Hook, A.I.A. of Charlotte, North Carolina, to be recommended as a Fellow in the American Institute of Architects, and I would like to add my personal endorsement of this recommendation.

It is my sincere belief that Mr. Hook is one of the most outstanding of our North Carolina architects not only in his professional practice and standards, but also in the unselfish service that he has rendered to the State as a whole as well as the profession of architecture.

He has served in official capacities in the North Carolina Chapter for many years and his wise counsel has always been most helpful to us. He has served as the Chairman of the State Building Code Council and has upheld the highest principles inherent in the purposes of the building code. This has been done at times in the face of considerable political pressure.

I believe that the admission of Mr. Hook as a Fellow of the Institute will add another distinguished practitioner to the long list of those who have served the profession well.

Sincerely,

Gentlemen:

May I take this opportunity to earnestly recommend your serious consideration of the application for admission of Mr. Walter W. Hook, AIA, of Charlotte, N. C. as a Fellow of the American Institute of Architects.

I knew Mr. Hook for a number of years before I applied for membership in A.I.A. Very frankly it was upon my observation of the high ethical standards, sincere interest in and untiring work for not only the N. C. Chapter but the profession as a whole, demonstrated in Walter Hook, which prompted my desire to be a member of an organization which justified that amount of effort.

Walter has expended a great deal more time, effort and money for the general welfare of the Chapter and the profession than either his practice or his purse could afford. I believe that every member of the N. C. Chapter fully appreciates his efforts, recognizes their debt of gratitude to him and wishes to take this means of acknowledgement.

In my opinion, his record of experience and performance will amply justify a favorable decision.

Gentlemen:

I wish to write a letter of commendation for Walter W. Hook, Charlotte, North Carolina.

I have known Mr. Hook for a period of 20 years or more and have always had the highest esteem for him both for the splendid architect that he is and for his personality. He is carrying on practice of his father who was one of the leading architects in this state in his day. Mr. Hook has participated in many activities and at the present time is a member and president of the North Carolina State Board of Architectural Examination and Registration. He is also Chairman of the North Carolina Building Code Council, and as such has rendered great service to the building and construction industry of the state. He is a member of the various local and civic groups in the City of Charlotte, particularly of the Board of Directors of the Mint Museum in Charlotte.

We members of the profession consider Mr. Hook one of the outstanding, if not the leading architect in the state, and we believe that he possesses all the leadership qualities that should entitle him to recognition by the American Institute of Architects in awarding to him a Fellowship.

Mr. Hook's office is one of the oldest offices in the state, having been established by his father and it has been maintained on a high standard throughout the years.
