Judging Criteria, Jury List & Release From

Deadline and entry fees	<p>Libraries are more than learning centers—they're also enduring examples of architectural excellence. Every year, the AIA is proud to partner with the American Library Association/Library Leadership and Management Association to honor the best in library architecture and design.</p> <p>The AIA/ALA Library Building Award is the only award that recognizes entire library structures and all aspects of their design.</p> <ul style="list-style-type: none"> • the deadline for submission is January 12, 2023 prior to 5pm Eastern - all deadlines are strictly observed • the non-refundable entry fee per entry is \$400 • it is incumbent on the submitter to make sure that all third-party forms are complete by the deadline (Unpaid Labor Declaration/Code of Ethics and Client Authorization)
Project Name *	<p>The name provided will be used in all print and electronic communication should this project be selected.</p>
Judging Criteria	

	<p>The jury evaluates entries based on how successfully projects have met their individual requirements. Entries are judged individually—not in competition with each other.</p> <p>All projects must demonstrate design achievement, including a sense of place and purpose, of ecology and environmental sustainability, and of history.</p> <p>Since both architects and clients are recipients of an AIA/ALA Library Building Awards, submitting architects must notify their clients of the program requirements prior to entering. Entries will become the property of the AIA and will be retained in the collections of the AIA Library and Archives and the American Library Association. The ALA will also retain access to all other entries for research purposes.</p> <p>Entrants</p> <ul style="list-style-type: none">• Architects licensed in the US.• On team projects, the architect submitting the entry does not have to be the head of the team.• All team, group, or firm projects must credit all who substantially contributed in any capacity (for example, landscape architects and construction firms). <p>Projects</p> <ul style="list-style-type: none">• The award is open to all types of libraries that permit public access.• The library must be in service and completed after January 1, 2018.• New construction, renovations, restorations, conversion to library use, and interior redesign and refurbishing are eligible.• Projects may be located anywhere in the world. <p>2023 AIA/ALA Library Building Awards Jury</p> <p>TBD</p> <p>Causes for Disqualification</p> <ul style="list-style-type: none">• Any project that credits a jury member or firm as architect, associate architect, consultant, or client is ineligible and will be disqualified if submitted.
--	--

	<ul style="list-style-type: none"> • Communication with the jury from the time of submittal to completion of the jury process by the candidate or anyone acting on their behalf is inappropriate and cause for disqualification. <p>Release Form</p> <p>Information and illustrations for any project receiving an award or chosen for inclusion in any award citation will be taken from the information and materials submitted by the entrant (“Entrant”). There may be no further communication with the Entrant prior to the announcement of an award. Accuracy, therefore, is essential.</p> <p>BY MAKING A SUBMISSION, THE ENTRANT AGREES THAT THE INFORMATION CONTAINED IN THE ENTRANT’S CONCEALED IDENTIFICATION FORM AND ANY OTHER INFORMATION OR MATERIALS SUBMITTED BY THE ENTRANT ARE COMPLETE AND ACCURATE. THE ENTRANT FURTHER AGREES TO INDEMNIFY AND HOLD HARMLESS THE AMERICAN INSTITUTE OF ARCHITECTS (“AIA”) AND HANLEY WOOD, LLC, FROM AND AGAINST ALL CLAIMS OR DAMAGES ARISING OUT OF THE USE OF ANY INFORMATION OR OTHER MATERIALS SUPPLIED BY THE ENTRANT. ALL ERRORS OR OMISSIONS ARE THE SOLE RESPONSIBILITY OF THE ENTRANT.</p> <p>The Entrant further certifies that Entrant has obtained all permissions necessary to permit the AIA to publish, without financial or other obligation, any information, photograph or other materials submitted by the Entrant, including any permissions required from any individual, architect, contractor, owner or photographer, and such grant will include the necessary permissions to include the same in the AIA’s designated periodical(s), published by Hanley Wood, LLC, for purposes of any announcements for this awards program. The Entrant certifies that the AIA is authorized to use all such materials as it may deem appropriate in connection with this awards program, including publicizing the program itself.</p>

Project Overview *	<p>Please describe your project emphasizing elements of design achievement including project intentions, programming requirements, cost data, and the distinguishing aspects of your resolution.</p> <p>Word Limit: 500</p>
Project History *	<p>Provide a timeline, and summary on how the project came to be including the client’s perspective from the start and what impact the project has made on the clients and the community.</p> <p>Word Limit: 500</p>
Framework for Design Excellence Overview	<p>In 2019, the AIA adopted the Framework for Design Excellence as the set of guidelines and requirements to assess project performance. Climate change requires a holistic approach, addressing the interdependencies among people, buildings, infrastructure, and the environment. The Framework for Design Excellence provides the elements that support this vision during project evaluation. While projects submitted do not need to address all the measures included in the framework, they need to highlight how they perform in this context and highlight relevant narratives and metrics when applicable.</p> <p>In the following sections, please provide narratives and relevant metrics to the specific measures that apply to your submission. Add N/A when not applicable or when information is not available, where relevant explain why this is the case. Submitters are expected to provide as much accurate data as possible.</p>
Design for Integration*	<ol style="list-style-type: none"> 1. Design for integration (500 words) Good design elevates any project, no matter how small, with a thoughtful process that delivers both beauty and function in balance. It is the element that binds all the principles together with a big idea. Describe how the project demonstrates

	<p>design for integration. These guiding questions are a starting point for thinking about your project’s performance.</p> <ul style="list-style-type: none"> • What was the concept or purpose behind this project, and how did the priorities within the nine other principles inform the unique approach to this project? • How does the project engage the senses and connect people to place? • What makes the project one that people will fight to preserve? • What design strategies can provide multiple benefits across the triple bottom line of social, economic, and environmental value?
Design for Equitable Communities*	<p>2. <u>Design for equitable communities</u> (200 words) Design solutions affect more than the client and current occupants. Good design positively impacts future occupants and the larger community. Describe how the project demonstrates design for equitable communities. These guiding questions are a starting point for thinking about your project’s performance.</p> <ul style="list-style-type: none"> • What is the project’s greater reach? How does this project contribute to creating a diverse accessible, walkable, just, human-scaled community? • Who might this project be forgetting? How did the design process and outcome remove barriers and promote inclusion and social equity, particularly with respect to vulnerable communities? • What opportunities exist in this project to include, engage, and promote human connection? • How does the design support health and resilience for the community during times of need or during emergencies?
Design for Ecosystem*	<p>3. <u>Design for ecosystem</u> (200 words) Good design mutually benefits human and nonhuman inhabitants. Describe how the project demonstrates design for ecosystems. These guiding questions are a starting point for thinking about your project’s performance.</p> <ul style="list-style-type: none"> • How does the design support the ecological health of its place over time? • How does the design help users become more aware and connected with the project’s place and regional ecosystem? • How does the design build resilience while reducing maintenance?

	<ul style="list-style-type: none">• How does the project support regional habitat restoration?
Design for Water*	<p>4. Good design conserves and improves the quality of water as a precious resource. Describe how the project demonstrates design for water. These guiding questions are a starting point for thinking about your project's performance.</p> <ul style="list-style-type: none">• How does the project use water wisely, addressing efficiency and consumption while matching water quality to appropriate use?• How does the project's water system maintain function during emergencies or disruptions?• How does the project handle rainfall and stormwater responsibly?• How does the project contribute to a healthy regional watershed?
Design for Economy*	<p>5. <u>Design for economy</u> (200 words) Good design adds value for owners, occupants, community, and planet, regardless of project size and budget. Describe how the project demonstrates design for economy. These guiding questions are a starting point for thinking about your project's performance.</p> <ul style="list-style-type: none">• How do we provide abundance while living within our means?• How did the design choices balance first cost with long-term value?• How was the performance of this project improved in ways that are cost and design neutral?
Design for Energy*	<p>6. <u>Design for energy</u> (200 words) Good design reduces energy use and eliminates dependence on fossil fuels while improving building performance, function, comfort, and enjoyment. Describe how the project demonstrates design for energy. These guiding questions are a starting point for thinking about your project's performance.</p> <ul style="list-style-type: none">• How did passive design strategies contribute to the project's performance and form?• How did the project exceed building code efficiency standards to approach net zero energy and net zero carbon?

	<ul style="list-style-type: none"> • Was the project powered by clean, renewable energy sources? • How does the project provide for continuous performance improvements over its lifetime?
Design for Well-being*	<p>7. <u>Design for well-being</u> (200 words) Good design supports health and well-being for all people, considering physical, mental, and emotional effects on building occupants and the surrounding community. Describe how the project demonstrates design for well-being. These guiding questions are a starting point for thinking about your project's performance.</p> <ul style="list-style-type: none"> • How does the design encourage a healthy lifestyle? • How does the project provide for greater occupant comfort? • How is the project welcoming and inclusive for all? • How does the project connect people with place and nature? • How did material selection reduce hazards to occupants?
Design for Resources*	<p>8. <u>Design for resources</u> (200 words) Good design depends on informed material selection, balancing priorities to achieve durable, safe, and healthy projects with an equitable, sustainable supply chain to minimize possible negative impacts to the planet. Describe how the project demonstrates design for resources. These guiding questions are a starting point for thinking about your project's performance.</p> <ul style="list-style-type: none"> • What factors (priorities) were considered in making material selection decisions? • How were materials and products selected and designed to reduce embodied carbon and environmental impacts while enhancing building performance? • How did material selection reduce hazards and support equitable labor practices in the supply chain? • How does the project promote zero waster throughout its life cycle? • How does the project celebrate local materials and craft? • How long will the project last, and how did that affect your material?

Design for Change*	<p>9. <u>Design for change</u> (200 words) Adaptability, resilience, and reuse are essential to good design, which seeks to enhance usability, functionality, and value over time. Describe how the project demonstrates design for change. These guiding questions are a starting point for thinking about your project's performance.</p> <ul style="list-style-type: none"> • How does the project address future risks and vulnerabilities from social, economic, and environmental change? • How was the project designed for adaptation to anticipate future uses or changing markets? How does the project address passive survivability and/or livability?
Design for Discovery*	<p>10. <u>Design for discovery</u> (200 words) Every project presents a unique opportunity to apply lessons learned from previous projects and gather information to refine the design process. Describe how the project demonstrates design for discovery. These guiding questions are a starting point for thinking about your project's performance.</p> <ul style="list-style-type: none"> • How did the design process foster a long-term relationship between designers, users, and operators to ensure design intentions are realized and the building project performance can improve over time? • How are performance data and experiential stories shared, even if the findings fall short of the vision? • What strategies promote a sense of discovery and delight?

Framework for Design Excellence Metrics

Years of Substantial Completion*	
*	What is the gross conditioned floor area (in sq. ft.) of the project?
*	What is the primary use type of the project?
*	Which of the following best describes the project site?

Design for Integration*	Was a design charrette or sustainability workshop conducted with owner and team?
Design for Equitable Communities*	<p>Which of the following levels of community engagement were used during the design process? (select all that apply)</p> <ul style="list-style-type: none"> <input type="checkbox"/> No community engagement practices were applied for this project <input type="checkbox"/> Inform: Potential stakeholders were informed about the project <input type="checkbox"/> Consult: Stakeholders were provided with opportunities to provide input at pre-designed points in the process <input type="checkbox"/> Involve: Stakeholders were involved throughout most of the process <input type="checkbox"/> Collaborate: A partnership is formed with stakeholders to share in the decision-making process including development of alternatives and identification of the preferred solution <input type="checkbox"/> Empower: Stakeholders were provided with opportunities to make decisions for the project <input type="checkbox"/> Unknown <input type="checkbox"/> Not applicable (please explain)
Ecosystem*	What percent of site area supported vegetation (landscape or green roof) pre-development?
Ecosystem*	What percent of site area supported vegetation (landscape or green roof) post-development?
Ecosystem*	What percent of site area is covered by native plants that support native or migratory species and pollinators?
Ecosystem*	<p>Which of the following intentional design strategies were used to promote design for ecosystem? (select all that apply)</p> <ul style="list-style-type: none"> <input type="checkbox"/> Biodiversity <input type="checkbox"/> Dark skies <input type="checkbox"/> Bird safety

	<ul style="list-style-type: none"> <input type="checkbox"/> Soil conservation <input type="checkbox"/> Habitat conservation, flora/fauna <input type="checkbox"/> Abatement of specific regional environmental concerns <input type="checkbox"/> None of the above <input type="checkbox"/> Unknown <input type="checkbox"/> Not applicable (please explain)
Water*	Is potable water used for irrigation?
Water*	Is potable water used for cooling?
Water*	Is grey/blackwater re-used on site?
Water*	Is rainwater collected on site?
Water*	What percent of stormwater is managed on site?
Cost	<p>Unless otherwise noted, AIA and the jury will keep financial information confidential. AIA will only describe financial information in public narratives with prior consent from the submitter.</p> <p>**Please note, the jury will not evaluate projects that are unwilling to disclose financial information to the AIA and the jury, which means such projects will not advance to the finalist or winning stages. **</p>
Cost	What is the cost per square foot for this project (report in USD/sq ft)?
Design for Economy Regional Comparison*	How does the cost to construct this project compare to similar buildings in the region?
Energy*	Using ZeroTool, what is the 2030 Commitment baseline EUI (in kBtu/sf/yr) for the project?

Energy*	<p>What was the predicted EUI (in kBtu/sf/yr) of the project, including on-site renewables?</p> <p>Note: carbon offsets should not be counted</p>
Energy*	<p>What was the percent reduction from the benchmark?</p> <p>To calculate, first subtract predicted EUI from baseline; then divide by baseline.</p>
Energy*	<p>Is the project all-electric?</p>
Well-being*	<p>What level of air filters are installed?</p>
Well-being*	<p>Do greater than 90% of occupied spaces have a direct view to the outdoors?</p>
Well-being*	<p>Was a 'chemicals of concern' list used to inform material selection?</p>
Resources*	<p>Were embodied carbon emissions estimated for this project?</p>
Resources*	<p>What is the estimated embodied carbon emissions (in kgCO₂e/m²/yr) associated with the project, including the extraction and manufacturing of materials used in construction?</p>
Change*	<p>What is the estimated service life of the project (in years)?</p>
Change*	<p>Which of the following best describes the project's ability to survive without utility power?</p>
Change*	<p>Which of the following risk assessment and resilience services were provided? (select all that apply)</p> <p><input type="checkbox"/> Hazard identification</p>

	<ul style="list-style-type: none"> <input type="checkbox"/> Climate change risk <input type="checkbox"/> Building vulnerability assessment <input type="checkbox"/> Hazard mitigation strategies above code <input type="checkbox"/> None of the above <input type="checkbox"/> Unknown <input type="checkbox"/> Not applicable (please explain)
Discovery*	Has a post-occupancy evaluation been conducted?
Discovery*	<p>Which of the following building performance transparency steps have been taken? (select all that apply)</p> <ul style="list-style-type: none"> <input type="checkbox"/> Present the design, outcomes, and/or lessons learned to the office <input type="checkbox"/> Present the design, outcomes, and/or lessons learned to the profession <input type="checkbox"/> Present the design, outcomes, and/or lessons learned to the public <input type="checkbox"/> Publish post-occupancy data from the project <input type="checkbox"/> Publish lessons learned from design, construction, and/or occupancy <input type="checkbox"/> None of the above <input type="checkbox"/> Unknown <input type="checkbox"/> Not applicable (please explain)

Project Information

	<p>Project and Sustainable Design Information</p> <ul style="list-style-type: none"> • Projects are strongly encouraged to meet the energy reduction goals established in the AIA Sustainable Architectural Practice Position Statement and the AIA 2030 Commitment.
