# WEBINAR SUMMARY REPORT
Physical Security Resources for K-12 Schools

The following report provides insights and key metrics from a webinar hosted on November 15, 2022, by the Federal School Safety Clearinghouse in coordination with the Cybersecurity and Infrastructure Security Agency's (CISA) School Safety Task Force (SSTF), the Partner Alliance for Safer Schools (PASS), and the American Institute of Architects (AIA) Committee on Architecture for Education (CAE).

The webinar – held in support of Infrastructure Security Month – provided an overview of strategies and actions school personnel can implement to protect against and mitigate security threats while supporting student mental health and emotional development, as well as the resources available to assist school communities in these efforts. The webinar concluded with additional tools and guidance available through SchoolSafety.gov.

Presenters

Chuck Wilson
Chair of Advisory Council
PASS

Jaelon Moaney
Manager, Federal Relations
