

2023 Design for Aging Review Awards, 17th Edition
Sample Application

Submitter Information

First Name *	
Last Name *	
Company Name *	
Phone # *	
Email Address *	
Architectural Credits	Please list all architectural firms that should be credited for public display should this project receive recognition.
Demographic information	All demographic information provided is confidential, and only used for statistical purposes.
Firm Size*	Please indicate the size of the candidate firm: <ul style="list-style-type: none"> - 0-25 - 26-50 - 51-100 - 100-1000 - 1000+
Firm Demographics	If available, please provide gender demographic information pertaining to the nominated firm. (Ex. xx% Male; xx% Female)
Firm Demographics*	If available, please provide race and ethnicity demographic information pertaining to the nominated firm. <ul style="list-style-type: none"> - American Indian or Alaska Native - Asian - Black or African American - Hispanic/Latino - Native Hawaiian or Other Pacific Islander - White - Other

	- Choose not to answer
Firm Demographics*	If available, for each of the racial and ethnic identifiers used above, please specify the percentage of each employed at the firm. (Ex. 5% Black or African American; 30% White; 2% American Indian)

Introduction, Judging Criteria, Jury List & Release From

General Information	<p style="text-align: center;">Welcome to the AIA Design for Aging Review Awards, 17th Edition</p> <p>The AIA Design for Aging Knowledge Community is thrilled to invite architects, designers, and providers to submit projects for consideration in the <i>Design for Aging Review (DFAR)</i>, Cycle 17.</p> <p>The <i>Design for Aging Review</i> provides architects and their teams with the opportunity to demonstrate innovative solutions that improve the quality of life for older adults within specified project constraints. The competition includes a juried exhibition, access to digital content, and educational programs that showcase communities representing conscientious surroundings that advance environments for senior living. The jury is comprised of industry architects, allied professionals, and senior living providers, who will convene to select the recipients.</p> <p>All selected projects will be published in a digital DFAR17 compilation. In addition, the Merit projects will be published in a Supplement for Environments for Aging, sent to approximately 23,000 subscribers. The projects will also be exhibited at one of more of the following conferences: LeadingAge Annual Meeting</p>
---------------------	--

	<p>and Expo, Environments for Aging Conference and Expo, as well as the AIA Conference on Architecture.</p> <p>Deadline and entry fees</p> <ul style="list-style-type: none">• the deadline for submission is July 13, 2023 prior to 5pm Eastern• all deadlines are strictly observed• the non-refundable entry fee is \$750 for first entry (either built, unbuilt or affordable) and \$500 for additional project(s) or small project under \$3 million.
Eligibility	<p>All entries must meet the following requirements for each of the entry categories: (Note: No entity, neither owner nor architect, may submit a project if either party is a sponsor of any aspect or jury member of the <i>Design for Aging Review</i>, 17th Edition.)</p> <ul style="list-style-type: none">• Open to AIA Members and non-members based in the United States or Internationally; however, there must be an identified US-licensed architect on the project• Projects submitted by jury members or by the organizations they represent, and projects that included jury members on their team, will be disqualified.• All entries must receive permission from owners and other team members and acknowledge that permission as part of the submission. Designers and providers should collaborate on completing the form, as there likely are some questions better answered by one group or the other.• Projects may only be submitted once, under one category. If a project can be classified under more than one category, applicants are encouraged to choose the one they think best applies to their project.

Submission Requirements	<p>The DFAR submission requirements have been streamlined to no longer include Section III: Project Components, Size & Costs and Section IV: Resident Profile. Projects selected as recipients at all levels (Merit, Special Recognition, and Published) may be required to provide this additional information during a secondary process.</p> <p>Please note the following:</p> <p><u>Built projects:</u> The built form(s) and related site work, whether it is an entire campus or a wing of a building, should be submitted for this category. Built projects that are submitted may include but are not limited to, the following suggested components:</p> <ul style="list-style-type: none">• Active Adult/Age Restricted• Independent Living• Assisted Living• Special Care Units (e.g. for persons with dementia, etc.)• Skilled Nursing• Other Medical Services Care Facility such as Hospice• Senior Community Center/Adult Day Care Center• Wellness Center/Fitness Center for seniors• Other (e.g. Dining Facilities, Chapel, etc.) projects focused on seniors and aging• All representative areas of the building components shall be submitted, including a site plan for the entire project, with all components clearly labeled. Jury evaluation will include a holistic overview of the complete project and the relationship of past, current, or future (if known) phases. For example, a LifePlan Community submittal that does not include the healthcare areas may be published but not considered eligible for an Award of Merit (see “Recognition”).• The function of the building and its major departments should be described in detail through site and floor plans, as applicable.
-------------------------	---

	<ul style="list-style-type: none">• Projects should be illustrated with color images of the interior and exterior of the building as well as perspective drawings, site and floor plans, elevations, and any other design elements deemed appropriate. Submissions must fully illustrate the interior environment as well as the exterior; at least one interior photograph must be included in the submission. Captions are required for all images, with north arrow and scales on all drawings. <p><u>Small Projects: Built or Unbuilt (\$3 million construction cost or less):</u> This category includes supportive elements of the built environment, either as small stand-alone projects or as a part of larger projects, including interior and/or outdoor spaces. These special features may include, but are not limited to, aging-in-place; community-based projects; bathing areas; gardens; day lighting; acoustical, lighting, mechanical, and electrical systems; life/safety; dignity-enhancing; operating system designs; renovations or conversions of buildings for supportive housing; and innovative products that have been completed. Projects submitted in this category are eligible for a Merit Award.</p> <p><u>Affordable Projects:</u> Projects submitted to this category should meet the following criteria. Residents can obtain housing with a mix of income from 30-60% average median income (AMI) and should also meet Inclusionary Zoning needs. Housing types should be for independent senior and assisted living. Mixed income can include a mixture of affordable and market rate units within the project. Affordable projects are eligible for a Merit Award.</p> <p><u>Unbuilt Projects:</u> Projects submitted in this category may be in the planning phase only. Projects may be community or campus plans, master plans or re-positioning plans. Also, building projects that are currently in early stages of design, which demonstrate significant ideas or innovations, should be submitted in this category.</p>
--	--

	<p>Unbuilt projects should be illustrated with perspective drawings, site and floor plans, elevations, and any other design elements that are appropriate. If available, photographs of models (black/white or color) should be submitted. Captions are required for all images, with north arrow and scales on all drawings. Unbuilt projects are eligible for Special Recognition only.</p>
Resubmission Guidelines	<p>Projects that have been submitted and accepted for publication in previous <i>Design for Aging Review</i> cycles may not be resubmitted except under the following conditions:</p> <ul style="list-style-type: none">• The project was submitted in design (i.e. unbuilt), has been completed, and evidence of the completed project is furnished.• The project was submitted as an earlier phase of a multiphase development, and additional phases are complete.• Projects not previously selected for publication in the <i>Design for Aging Review</i> may also be resubmitted. Resubmitted projects must meet the eligibility requirements outlined above.
Project Name *	<p>Please provide the full name of the project without revealing the name of the architect or firm. Failure to follow this requirement will result in disqualification.</p>
Submission Type*	<p>-Member -Non-Member -Academic Institution</p>
Submitting Architect's Name*	

Submitting Architect's Email Address*	
Submitting Architect's Address*	
Is the submitting architect an AIA Member? *	
Member ID#	
Project Submission History	Is this project a resubmission or has it been submitted in the prior five years to another AIA program? If yes, please indicate the year and program submitted, and any recognition received when applicable.
Judging Criteria	<p>Update the highlighted text to the following.</p> <p>The jury will consist of architects, allied professionals, and providers familiar with the unique needs of designing for older adults. Persons associated with projects submitted for review may not serve as jurors.</p> <p>The jury will have sole discretion in selecting entries believed to best represent a cross-section of design for aging. All decisions regarding Awards of Merit, Special Recognitions, and Published projects are final.</p> <p>The jury's consideration will include, but not be limited to, the following (in bullet points):</p> <p>Adequacy of the design response to the owner's program of needs and project goals, including innovative solutions for atypical sites and/or unique populations</p> <ul style="list-style-type: none">• Successful strategies for improving the quality of life for seniors

	<ul style="list-style-type: none">• Appropriate accessibility for older adults• Responses to site and climatic conditions or constraints• Innovations in sustainable and resilient design• Effective design for both community engagement and privacy• Innovative support for community programming through design• Application of evidence-based design process for outcome-driven design strategies• Well-formatted, clear, and concise graphic presentation of project information <p>High consideration for documented sustainable design solutions and construction implementation.</p> <p>2023 AIA Design for Aging Review Awards Jury</p> <p>TBD</p> <ul style="list-style-type: none">• any project that credits a jury member or firm as architect, associate architect, consultant, or client is ineligible and will be disqualified if submitted• communication with the jury from the time of submittal to completion of the jury process by the candidate or anyone acting on their behalf is inappropriate and cause for disqualification
--	--

	<p>Release Form</p> <p>Information and illustrations for any project receiving an award or chosen for inclusion in any award citation will be taken from the information and materials submitted by the Entrant. There may be no further communication with an entrant prior to the announcement of an award. Accuracy, therefore, is essential.</p> <p>BY MAKING A SUBMISSION, THE ENTRANT AGREES THAT THE INFORMATION CONTAINED IN ITS CONCEALED IDENTIFICATION FORM AND ANY OTHER INFORMATION OR MATERIALS SUBMITTED BY THE ENTRANT ARE COMPLETE AND ACCURATE. THE ENTRANT FURTHER AGREES THAT IT SHALL INDEMNIFY AND HOLD HARMLESS The American Institute of Architects ('AIA') AND Hanley Wood, FROM AND AGAINST ALL CLAIMS OR DAMAGES ARISING OUT OF THE USE OF ANY INFORMATION OR OTHER MATERIALS SUPPLIED BY THE ENTRANT. ALL ERRORS OR OMISSIONS ARE THE SOLE RESPONSIBILITY OF THE ENTRANT.</p> <p>The entrant further certifies that entrant has obtained all permissions necessary to permit AIA to publish, without financial or other obligation, any information, photograph or other materials submitted by the Entrant, including any permissions required from any individual, architect, contractor, owner or photographer, and such grant will include the necessary permissions to include the same in the AIA's designated periodical(s), published by Hanley Wood, LLC, for purposes of any announcements for this awards program. The Entrant certifies that the AIA is authorized to use all such materials as they deem appropriate in connection with this awards program, including publicizing the program itself.</p>

Project area	<p>What is the gross conditioned floor area (sq. ft.) of the project? <express as sq. ft.></p>

*This is a sample application. All final questions and requirements will be on the online platform.

<p>Project use/type</p>	<p>What is the primary use type of the project?</p> <ul style="list-style-type: none"> • Bank/Financial Institution • Courthouse • Data Center • Education - College/University (campus-level) • Education - General • Education - K-12 School • Food Sales - Convenience Store (w/ or w/out gas station) • Food Sales - General • Food Sales - Supermarket/Grocery • Food Service - Fast Food • Food Service - General • Food Service - Restaurant/Cafeteria • Health Care - Clinic • Health Care - Hospital Inpatient • Health Care - Medical Office • Health Care - Nursing/Assisted Living • Health Care - Outpatient - General • Laboratory - recommend use of Labs21 • Lodging - General • Lodging - Hotel/Motel • Lodging - Residence Hall/Dormitory • Mixed-Use • Office - Small (< 10,000 sf) • Office - Medium (< 100,000 sf) • Office - Large • Other • Parking • Public Assembly - Entertainment/Culture • Public Assembly - General • Public Assembly - Library • Public Assembly - Recreation • Public Assembly - Social/Meeting • Public Safety - Fire/Police Station • Public Safety - General • Religious Worship • Residential - Mobile Homes • Residential - Multi-Family, 2 to 4 units • Residential - Multi-Family, 5 or more units
--------------------------------	--

	<ul style="list-style-type: none"> • Residential - Single-Family Attached • Residential - Single-Family Detached • Residential - Mid-Rise/HIgh-Rise • Retail - Mall • Retail - Non-mall, Vehicle Dealerships, misc. • Retail Store • Service (vehicle repair/service, postal service) • Storage - Distribution/Shipping Center • Storage - General • Storage - Non-refrigerated warehouse • Storage - Refrigerated warehouse • Warehouse - Self-storage <p>Which of the following best describes your project site?</p> <ul style="list-style-type: none"> • Brownfield • Not previously developed • Previously developed
Project Overview *	<p>Please describe your project emphasizing elements of design achievement including project intentions, programming requirements, cost data.</p> <p>Word Limit: 500</p>
Project History *	<p>Provide a timeline, and summary on how the project came to be including the client’s perspective from the start and what impact the project has made on the clients and the community.</p> <p>Word Limit: 500</p>
Framework for Design Excellence Overview	<p>In 2019, the AIA adopted the Framework for Design Excellence as the set of guidelines and requirements to assess project performance. Climate change requires a holistic approach, addressing the interdependencies among people, buildings, infrastructure, and the environment. The Framework for Design Excellence provides the elements that support this vision during project evaluation. While projects submitted do not need to address all the measures included in the framework, they need to highlight how they perform in this context and highlight relevant narratives and metrics when applicable.</p>

*This is a sample application. All final questions and requirements will be on the online platform.

	<p>In the following sections, please provide narratives and relevant metrics to the specific measures that apply to your submission. Add N/A when not applicable or when information is not available, where relevant explain why this is the case. Submitters are expected to provide as much accurate data as possible.</p>
<p>Framework for Design Excellence Summary</p>	<p>In the space below, provide an overview of the submission as it relates to the Framework for Design Excellence.</p> <p>Word Limit: 500</p>
<p>Framework for Design Excellence: Designing for Integration</p>	<p>Focus topics</p> <ul style="list-style-type: none"> • central design concept • beauty and delight • integrated process <p>What is the big idea behind this project—and how did the approach toward sustainability inform the design concept? Provide an overview of the project, program, and any unique challenges and opportunities.</p> <p>Word Limit: 200</p>
<p>Framework for Design Excellence: Designing for Equitable Communities</p>	<p>Focus topics</p> <ul style="list-style-type: none"> • walkability/human scale/alternative transportation (<u>walk score</u>) • community engagement and buy-in • social equity <p>Indicate the overall character of the community engagement in the design process:</p> <ul style="list-style-type: none"> • No community engagement practices were applied for this project

	<ul style="list-style-type: none"> • Inform: Potential Stakeholders were informed about the project • Consult: Stakeholders were provided with opportunities to provide input at pre-designed points in the process • Involve: Stakeholders were involved throughout most of the process • Collaborate: A partnership is formed with stakeholders to share in the decision-making process including development of alternatives and identification of the preferred solution <p>How community members, inside and outside the building, benefit from the project. How does this project contribute to creating a walkable, human-scaled community inside and outside the property lines? How were community members engaged during the design and development process? How does the project promote social equity at local, regional, and global scales?</p> <p>Word Limit: 200</p>
<p>Framework for Design Excellence: Designing for Ecology</p>	<p>Focus topics</p> <ul style="list-style-type: none"> • landscaping/habitat/biodiversity • dark skies • bird-friendly design • site acoustics <p>Vegetation</p> <p>What percent of total site area supported vegetation pre-development? <express as a %></p> <p>What percent of total site area supports vegetation (landscape or green roof) post-development? <express as a %></p>

	<p>What percent of landscaped area is covered by native or climate-appropriate plants supporting native or migratory animals? <express as a %></p> <p>Describe the larger or regional ecosystem (climate, soils, plant and animal systems) in which the project is sited. In what ways does the design respond to the ecology of this place? How does the design help users become more aware of or connected with place and regional ecosystems? How does the design minimize negative impacts on birds and other animals (e.g., design to prevent bird collisions, dark-sky compliant lighting)? How does the project contribute to biodiversity and the preservation or restoration of habitats and ecosystem services? Word Limit: 200</p>
<p>Framework for Design Excellence: Designing for Water</p>	<p>Focus topics</p> <ul style="list-style-type: none">• indoor water efficiency• outdoor water use reduction• process water reuse • capture/reuse of greywater and/or blackwater• rainwater/stormwater use and management• Net Zero Water Building (nzwb) <p>Stormwater management What percent of stormwater is managed on-site? <express as a %></p> <p>How does the project use water wisely and handle rainfall responsibly? Sustainable design conserves and improves the quality of water as a precious resource. Illustrate how various water streams flow through the building and site, including major water conservation and stormwater management strategies. How does the project relate to the regional watershed? Describe strategies to reduce reliance on municipal water sources. Does the project recapture or reuse water? Word Limit: 200</p>

<p>Framework for Design Excellence: Designing for Economy</p>	<p>Focus topics</p> <ul style="list-style-type: none">• building size• Material use• operational requirements• financing and incentives• community links <p>Provide examples of how first cost and life cycle cost information influenced design choices. Identify any additional first-cost investments and how they are anticipated to improve life cycle costs and longer-term economic performance.</p> <p>Word Limit: 200</p>
<p>Framework for Design Excellence: Designing for Energy</p>	<p>Focus topics</p> <ul style="list-style-type: none">• energy benchmarking and goal setting• passive design features/climate responsive design• energy modeling• onsite renewables (solar, wind)• Net Zero Energy/Net Zero Carbon Building• Commissioning <p>Energy Use Intensity: What was the predicted net energy use intensity (kBtu/sf/yr) of the project, including on-site renewables (carbon offsets will not be counted)? <express as kBtu/sf/yr></p> <p>What is the actual net energy use intensity (kBtu/sf/yr) of the project, including on-site renewables (based on 1 year utility records)? <express as kBtu/sf/yr></p> <p>How much energy does the project use? Is any of that energy generated on-site from renewable sources, and what is the net carbon impact? How did analysis of local climate inform the design challenges and opportunities? Describe any energy challenges associated with the building type, intensity of use, or hours of operation, and how the design responds to these challenges. Describe energy-efficient design</p>

	<p>intent, including passive design strategies and active systems and technologies. How are these strategies evident in the design, not just the systems? Word Limit: 200</p>
<p>Framework for Design Excellence: Designing for Wellness</p>	<p>Focus topics</p> <ul style="list-style-type: none"> • natural and artificial lighting • thermal comfort • indoor air quality • happiness • biophilia/connection to nature • acoustics • food/movement/exercise <p>Quality views What percent of regularly occupied floor area have direct views of the outdoors? <express as a %></p> <p>Describe strategies for optimizing daylight; indoor air quality; connections to the outdoors; and thermal, visual, and acoustical comfort for occupants and others inside and outside the building. How does the design promote the health of the occupants? Describe design elements intended to promote activity or exercise, access to healthy food choices, etc. Outline any material health strategies, including any materials selection criteria based on third-party chemicals of concern lists, such as Living Building Challenge Red List, EPA chemicals of concern, etc. Include key results on occupant comfort from occupant satisfaction surveys. Word Limit: 200</p>
<p>Framework for Design Excellence: Designing for Resources</p>	<p>Focus topics</p> <ul style="list-style-type: none"> • safer material selection • material sourcing • embodied carbon • construction waste diversion

	<p>What is the estimated carbon emissions (metric ton CO₂) associated with building construction, including the extraction and manufacturing of materials used in construction? <express as MT CO₂></p> <p>Sustainable design includes the informed selection of materials and products to reduce product-cycle environmental impacts while enhancing building performance. Describe efforts to optimize the amount of material used on the project. Outline materials selection criteria and considerations, such as enhancing durability and maintenance and reducing the environmental impacts of extraction, manufacturing, and transportation. Identify any special steps taken during design to make disassembly or reuse easier at the building's end of life. What other factors helped drive decision-making around material selection on this project? Word Limit: 200</p>
<p>Framework for Design Excellence: Designing for Change</p>	<p>Focus topics</p> <ul style="list-style-type: none"> • flexibility and future adaptability • risk assessment • resilience • passive survivability <p>Existing buildings/adaptive reuse What percentage of floor area, if any, represents adapting existing buildings? <express as %></p> <p>Service life What is the estimated service life of the project? <express as years></p> <p>Survivability Which of the following best describes the projects' ability to survive without utility power? (select one)</p> <ul style="list-style-type: none"> • Not habitable without power • Passive survivability • Partial back-up power

	<ul style="list-style-type: none"> • Full back-up power <p>Reuse, adaptability, and resilience are essential to sustainable design, which seeks to maintain and enhance usability, functionality, and value over time. Describe how the project is designed to facilitate adaptation for other uses and/or how an existing building was repurposed. What other uses could this building easily accommodate in 50 to 100 years? In what ways did the design process consider climate change over the life of the building? Describe the project’s resilience measures: How does the design anticipate restoring or adapting function in the face of stress or shock, such as natural disasters, blackouts, etc.? How does the project address passive survivability (providing habitable conditions in case of the loss of utility power)? Word Limit: 200</p>
<p>Framework for Design Excellence: Designing for Discovery</p>	<p>Focus topics</p> <ul style="list-style-type: none"> • post-occupancy evaluation and engagement • relationships/graphic signage/training • knowledge sharing and lessons learned • discovery that influences behavior <p>Has a post-occupancy evaluation been conducted?</p> <ul style="list-style-type: none"> • Yes • No, but a POE will be conducted • No, and a POE will not be conducted <p>Has the building performed in ways that matched expectations during design? Post-occupancy evaluation can include monitoring thermal and daylight conditions, and energy and water consumption; surveys of occupant comfort; and studies of how the building is actually occupied and used. What lessons for better design have been learned through the process of project design, construction, and occupancy, and how have these been incorporated in subsequent projects?</p>

	<p>Describe ways the lessons have been shared with a larger audience (publications, lectures, etc.) and how the project may have influenced industry practices. Describe the processes used to maintain long-term relationships between the design team and those occupying and operating the building; identify how both the users and designers benefited.</p> <p>Word Limit: 200</p>

Upload Materials for Jury Review

<p>Upload Materials for Jury Review</p>	<ul style="list-style-type: none">• Project images must be submitted in a single .PDF file not to exceed 25 MB.• It is your responsibility to make sure the architect's name and/or firm name is not revealed on any of the images, plans, or narratives. Failure to follow this requirement will automatically disqualify the entry.• It is the responsibility of the submitter to check that the files uploaded opens and can be viewed as intended. Entrants may save and edit their submission as much as necessary prior to submission completion before the deadline.• Upon the jury's final selection, you may be contacted to resubmit all images in a format that is suitable for publication. Winning submissions become the property of the AIA Library and Archives. <p>Your submission upload should include the following:</p> <p>For Built, Affordable and Small Projects:</p>
---	--

	<ul style="list-style-type: none"> • The function of the building and its major departments should be described in detail through site and floor plans, as applicable. • Projects should be illustrated with color images of the interior and exterior of the building as well as perspective drawings, site and floor plans, elevations, and any other design elements deemed appropriate. • Submissions must fully illustrate the interior environment as well as the exterior; at least one interior photograph must be included in the submission. • Captions are required for all images and should include north arrow and scales on all drawings. • Project must have been finished since January 1, 2017 <p>For Unbuilt Projects</p> <ul style="list-style-type: none"> • Unbuilt projects should be illustrated with perspective drawings, site and floor plans, elevations, and any other design elements that are appropriate. If available, photographs (black/white, or color) should be submitted. • Captions are required for all images and should include north arrow and scales on all drawings <p><u>Upload your file using the 'Choose File' Button below:</u></p>
